

# **Presentazione dell'Attività di Ricerca degli Iscritti al 2° anno (XXV ciclo)**

**Lunedì 14 novembre 2011 ore 14:30**

*Aula "Arturo Falaschi", Istituto di Genetica Molecolare - CNR, Pavia*

**ARRIGONI Laura (ore 14:30-14:55)**

**"Role of sequence and chromatin elements in origin firing  
and gene silencing"**

**BONOMI Serena (ore 14:55-15:20)**

**"Dissecting the molecular mechanisms modulating Alternative Splicing  
of *Ron* proto-oncogene during EMT program"**

**DONA' Mattia (ore 15:20-15:45)**

**"TDP1 $\alpha$ -depleted plants as model to study DNA repair  
in *Medicago truncatula*"**

**SCOFFONE Viola (ore 15:45-16:10)**

**"NiaR, the transcriptional regulator of the NAD biosynthesis  
in *B. subtilis*"**

**"Production and characterization of poly-gamma-glutamic acid  
by *B. subtilis* laboratory strains"**

**TILLHON Micol (ore 16:10-16:35)**

**"Role of p21<sup>CDKN1A</sup> in the DNA damage response: effects of p21 protein  
levels on Nucleotide Excision Repair"**

**UDINE Claudia (ore 16:35-17:00)**

**"Searching for new drugs and new molecular targets  
in *Burkholderia cenocepacia*"**

**VELLA Francesco (ore 17:00-17:25)**

**"Study of the equine transposable element ERE1"**
