

**Short course on
Electron microscopic analyses of the cell nucleus
by
Prof. Stan Fakan**
Department of Biology II, Section of Anthropology and Human Genetics
University of Munich

Room “Aula Grande” -Botta 2- Via Ferrata 9*

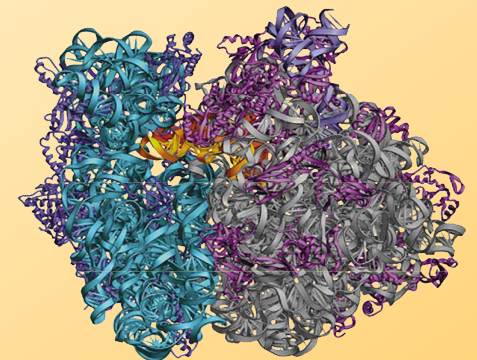

Lecture: *January 23rd, 2012, 11.00-13.00*
Electron microscopic analyses of the cell nucleus 1

Lecture: *January 24th, 2012, 14.30-16.30*
Electron microscopic analyses of the cell nucleus 2

Research seminar: *January 25th, 2012, 12.00*
Functional nuclear architecture studied at high resolution

LAUREA MAGISTRALIS IN MOLECULAR BIOLOGY AND GENETICS

*The “Botts 2” is located near the “Dipartimento di Genetica e Microbiologia” in the Scientific Campus, Polo Cravino
